

# WE'RE ALL EARS.

It's how we continue to develop leading products that make the leaf season trouble-free and productive for your customers. With a durable exterior, the RFHW.045 and UFD series have superior wear-resistance, so dragging is not an issue. And to prevent blockages, both flexible hoses are designed with a smooth interior. Whether it's a typical collection or severe street sweeping job, we have it covered this fall.

**Contact us today. You've got our ear.**
